

# **Nordic foresights and visions on ICT in healthcare, security, the experience economy and production systems**

**Jonas Svava Iversen  
Head of Section,  
Danish Technological Institute**

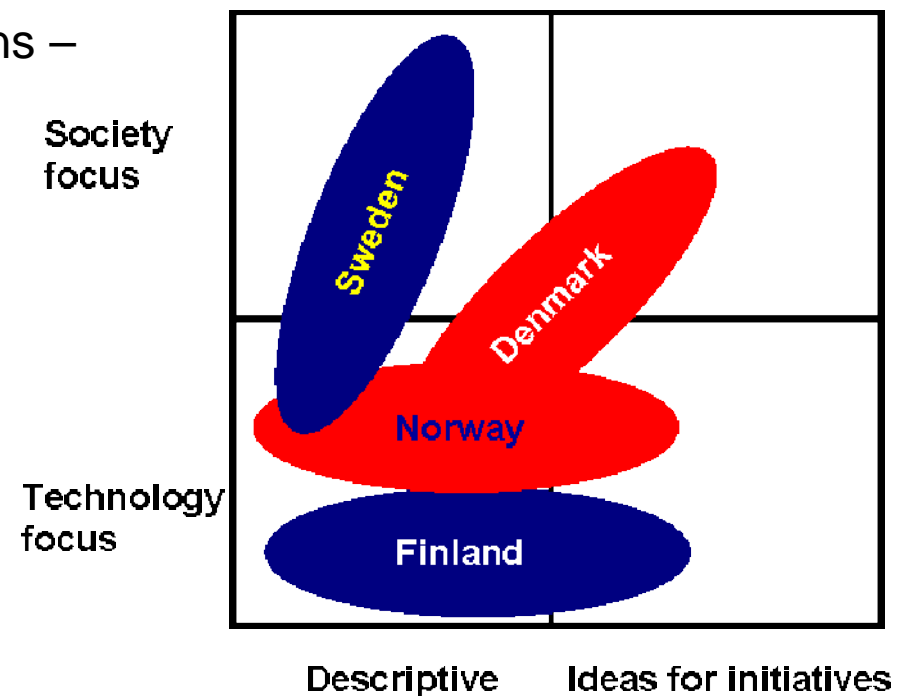

## Aim

To identify visions within the four countries related to the four focus areas.

Desk study.

Visions and ideas rather than ambitions –  
not necessarily public policy

Quite different scope and scale in the  
available material

## Challenge: To combine flexibility and user-orientation with efficiency

<b>Health care</b>	<b>Tele-medicine</b>	<b>EHR</b>	<b>Medico/sensor</b>	<b>Bio-informatics</b>
